CIRCUS

During this session children will learn balance, co-ordination, marking time and spatial awareness. They will have the opportunity to engage as a team, create dialogue and express themselves freely. This type of play also develops children's imaginations which are closely linked to intellectual development. They will explore creative development with the use of props, role play and a wide range of music. There will be opportunities for children to react, respond, take turns, talk and imagine. Doing this they will gain knowledge of the world, be creative and imaginative, develop their personal and social skills, and of course, moving will encourage healthy physical development.
